Best clipping service by far!

Best clipping service by far. I have used Zenith Clipping now for many years.
They are always quick to reply to my photo editing requests, always on time
with delivery and most importantly they deliver quality work.
I now send all my clipping (masking work) to them and will not hesitate to
recommend the team at Zenith Clipping.

Good prices with Great quality

Quick, high quality service.

Hello Mr. Shah Jalal,

thank you for the invoice.
all is correct.
Can you please send the invoice as pdf file...
When printing parts of the word doc. are missing..

and may be stupid question..but
the amount is US-Dollar?
for currency conversion

and..
first I was sceptical about the offer from your service
reaching me by email.
because we get lots of emails from asia from different
people offering a service for clipping and so on.
like "Hello, we can do this...we can do that for you...."

But after collecting some information about your company I said,
ok give them a try.
Let me say that it turned out that your service is very professional,
fast, reliable and the work is done great fulfilling our expectations.

Thank you very much. Tell all that you saved us a lot of time..
So this job is done, but
I will get back to you for further projects.

Have I good time
best wishes

Questions & Answers

Input, what and how do you receive images before being processed, are there minimum requirements?

Output, how do you deliver your work?

To receive & deliver images, we use several popular services.
1. Dropbox
2. WeTransfer
3. FTP

If you want us to use your own FTP, Server or any other 3rd party file transfer system, we will use that as well.

Minimum Requirements

Are there any minimum requirements?

No. There is no minimum requirements. But we prefer bulk order.

Process Flow

Start

File Transfer with proper instruction using Dropbox, FTP, Wetransfer or any other 3rd party file transfer system.
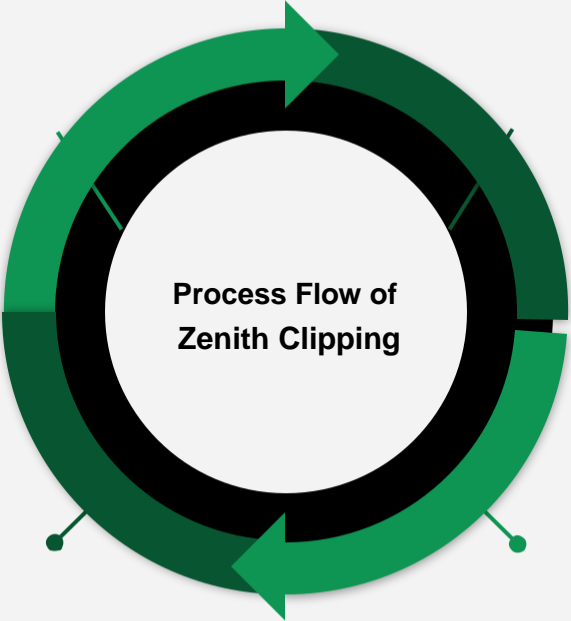

Processing

ZC will process according to Instruction.

Quality Check by ZC

ZC team will check processing quality before sending to client

Approval

Client check the processed images and approve the work. If any modification required, client will send the images back to ZC Team as redo task. ZC Team will redo task without additional cost.

Process Flow of Zenith Clipping

File Transfer - Automatic

We Prefer using Dropbox. When a client agree to work with us we create a dedicated folder for that client. Each time client wants to share images with us, client will create a sub-folder under that folder, he/she will drop all images in that folder. We will get the files once uploading is completed from client end. We will check the instruction and files before start working.

Once our team finish processing the images, we create a folder under that subfolder "Done" and we will keep all the processed files within that folder. Once uploading is completed from our end, dropbox will start syncing folder & files in client end.

File Transfer - Manual

Client can send us files by using WeTransfer or FTP or any other 3rd party link. We will process the images and send back to client by using Dropbox / WeTransfer.

FTP can be done automated. At the moment, we are not using any customized software for files transfer. Currently, we rely on Dropbox & WeTransfer. We have premium subscription on both platforms.

SLA's Performance Speed

Our current production capacity 5000 images per day with 150+ employee. We are able to process 20% more when we have more images then regular.

- TAT - Turnaround time for 5000 images is 24 hours. (Depends on the complexity of images)
- 24/7 Production Services, 8 hours service per shift, total 3 shifts
- We will process your images according to your given deadline.
- High configured computer for smooth workflow
- High speed corporate internet connectivity
- 24/7 Electricity backup

Validation Process

Our Process

1. Download at Local Server
2. Files will be shared with Team Leader
3. Team leader will distribute to designers
4. Designer will process and send it to QC Team
5. QC Team will review each files (1st Check)
6. QC Manager will review each files according to instruction (2nd Check)
7. QC Manager will deliver files to Client
8. Client will review and approve the work
9. If any modification requires, client will send back the images to us. We will process them without additional cost.

Automated Validation Process

Not applicable. We validate all of our images manually. It gives us better result and satisfy our clients.

How we calculate service amount

We use Google Spreadsheet to track the amount of images send by a client.

	A	B	C	D	E	F	G	H	I	J
	Date	Project Name	Order Name	Complexity 1	Complexity 2	Complexity 3	Complexity 4	Complexity 5	Total Image	Instruction
	5/1/2020	Sample Project	ZIT-001	10	20	30	10	5	75	

If you have any better solution to track the service amount, please advise us, we will update our log system.

Client Name ▾

Discounts

We offer discounts to every client's depends on the number of images we process for them. Please see the chart to understand our discount model.

NUMBER OF IMAGES PER MONTH	DISCOUNT
5000+	5%
10000+	8%
15000+	12%
